

## ST. MONTFORT SCHOOL, BHOPAL

**“Every drop makes a difference. Save water, save the planet. Don’t let life drip away. Join the revolution for clean water.”**

### Eco Club Activity on Water conservation (2024-25)

In order to give some valuable information regarding water conservation, ECO Club organized an assembly showcasing an enactment followed by a poem “Water a wonder liquid “.

The main purpose of the assembly was making the student aware about the importance of water and the different ways to conserve and preserve our nature from water scarcity like

- a) reuse water
- b) turn off taps
- c) limit lawn watering
- d) reduce shower time
- e) rainwater harvesting
- f) fix the leaks
- g) educate others etc.

At last, the conclusion of assembly was done by interactive sharing of thoughts. The assembly was presented by the students of class 3<sup>rd</sup> to 9<sup>th</sup> on 26<sup>th</sup> April 2024. The students participated in the assembly enthusiastically. Assembly was successfully conducted explaining the importance of the concern topic.
