

REPORT ON SCIENCE SYMPOSIUM 2021-22

An intersection science symposium was organized on 7th September 2021 by science club of St. Montfort School, Bhopal. The programme commenced with a prayer and welcome address by Dr .Sonia Sujeesh. She also explained the Rules & Regulations along with the parameters of judgements to the participants. The topic allotted to class 9 was “Earth beyond the Earth, Life possibilities in the universe” and the winners were Master Anand Sai, Mis.Anwasha Pal and Mast. Dinu Margade of class 9 C. The topic allotted to class 10th was ” Artificial Intelligence”and the winners were Master Prateek Rohilla, Mast.Sidharth Pisda and Mast.Devansh Lamaniya of Class 10 A .

The event saw intense competition among the participants. The students of class IX drew their indepth scientific knowledge and their understanding of current affairs while expressing their opinions on the topics of symposium with eloquence and skill. The energetic students of class X participated with full vigour and delivered the scientific message highlighting the benefits and harmfulness of Artificial intelligence with full enthusiasm.
